DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/10/2008 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 11 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification does not have support for the limitation of "the third plurality of image display parts each have a third size different from the first and second sizes". Figs. 6A-6G only seems to show a first, second, and third plurality of image display parts having the same size. Figs. 7A-7F and the portion of the specification referring to those figures seem to be the only portion of the specification that relates to display image parts having different sizes, but only teaches a first size and a second size. Figs. 7A-7F does not suggest a third size that is different from the first and second sizes.

Allowable Subject Matter

4. Claim 13 is allowed.

Response to Arguments

5. Applicant's arguments, see pg. 5-8, filed 8/5/2008, with respect to claims 11 and 13 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.
